Standalone merchants pricing:

The recommendation is to price standalone merchants higher than the recommended pricing level, as CKO will not be generating revenue from other products

IC++ vs Blended pricing

- If acquiring is on blended pricing, authentication will also need to be blended. To price blended, add the Scheme Fees (as outlined [here](#)) to the premium fee

Approval

- Approval required from the Regional Revenue Leader to price below the floor or above the ceiling.

Standard/Other MCCs
