Ceiling (\$/£/€)	0.20					

Approval:

- For pricing below the floor or above the ceiling limits, the approval of the Regional Revenue Leader is required

Standard/Other MCCs:

- For more information on the Standard/Other MCCs classification please refer to [this slide](#)

Blended Merchants vs IC++ Merchants:

- If a merchant is under IC++ pricing for Card Acquiring (Visa & MC), then NT will also be IC++
- **If a merchant is under Blended pricing for Card Acquiring (Visa & MC), then NT will also be Blended.** In this case you need to add the CKO fee on the tables on the left on top of the Scheme Fees:
 - Visa Scheme Fee on NT Updates: €0.12
 - MC Scheme Fee on NT Updates: €0.125

PRIVATE & CONFIDENTIAL

*The Scheme Fees charged to non-tokenized transactions are separate to the above and are already passed through for IC++ merchants. The potential savings for merchants using Network Tokens can be significant, for more information please see the Confluence page [here](#)
